

CALL FOR ABSTRACTS NOW OPEN

Share your experience around the conference theme "Perception, Risk and Opportunities"

The theme is broad and challenging and aimed at generating discussion and debate about the most fundamental issues of radiation protection.

As a profession, we base our work on good science and good practice, however, in the end, what is usually more important is social acceptance and understanding of the science as part of decision making.

For example, the need for broad social acceptance and understanding of the science underpinning radiation protection will be highlighted this year as the Nuclear Fuel Cycle Royal Commission hands down its findings in South Australia, and work will increase on the development of Australia's National Radioactive Waste Management Facility. Both processes have generated much public discussion and public scrutiny and will continue to do so.

This conference is therefore aiming to create a space to think outside the box and to challenge the paradigms, to recognise the broader implications of our work and to share what works.

Abstracts are sought in the following important radiation protection areas;

Medical uses of radiation

Environmental impacts

Industrial use of radiation

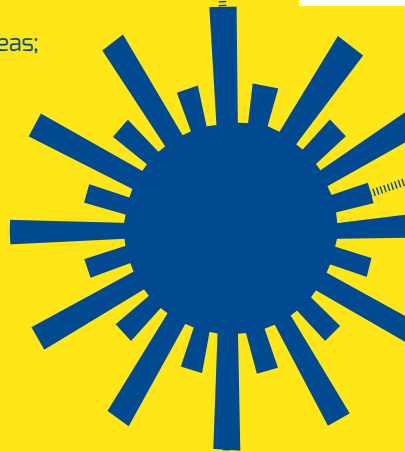

NORM

Waste management

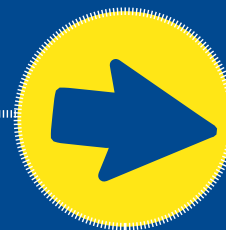

Non-ionising radiation

Emergency Response

Developments in Radiation protection, technology and methods

**ADELAIDE CONVENTION CENTRE
ADELAIDE, SOUTH AUSTRALIA. 11-14 SEPTEMBER 2016
PERCEPTIONS, RISKS AND OPPORTUNITIES**

ADELAIDE - SOUTH AUSTRALIA'S VIBRANT, CULTURAL CAPITAL CITY

Adelaide combines exceptional food and wine with art, shopping, culture and fantastic weather.

The space to breathe

Adelaide is a city that offers the physical and emotional space to breathe. There is a sense of freedom here – of expression, of movement, of thought. It is not only the gateway to some of Australia's best wine country, the city centre is surrounded by parklands and is a blend of historic buildings, wide streets, cafes and restaurants.

Adelaide has rolling hills to the east and beaches to the west. With a population of slightly more than one million, Adelaide is the "20 minute city". The airport is only seven kilometres from Adelaide city. The Adelaide Hills and major beaches are less than half an hour away by car. That's what we call liveable.

The Adelaide Convention Centre is located in the CBD of Adelaide, adjacent to the picturesque River Torrens and parklands. The Adelaide Convention Centre's unique design and exceptional versatility is unparalleled.

ATTENDING ARPS 2016 AS A BUSINESS DEVELOPMENT OPPORTUNITY

We have a number of support packages available for companies interested in promoting their brand and products to the ARPS delegation. Here is a glimpse of what we have on offer.

	AUD gst inc
Major Sponsor	\$15,500
Conference Dinner Sponsor	\$12,500
Welcome Reception	\$9,500
Barista Cart Sponsor	\$8,000
Satchel Sponsor	\$7,500
Name Badge & Lanyard Sponsor	\$6,500
Keynote Speaker Sponsor	\$5,500
WiFi Sponsor	\$4,400
Day Refreshment Break	\$2,500
Trade Exhibition Stand – Early Bird (before 20/6/2016)	\$2,950
Trade Exhibition Stand – Standard (after 20/6/2016)	\$3,300

WHO WILL BE THERE?

The Australasian Radiation Protection Society Conference is expected to attract 140 dedicated professionals from across Australia.

Typically, attendees to the ARPS Conference will represent organisations such as:-

Environmental Protection Authority (from all states of Australia); ARPANSA, Australian and New Zealand Universities, Department of Defence, Department of Health & Human Services, ANSTO, representatives from hospitals and CSIRO.
